

# Jumbled Text

## Level

Intermediate-advanced

## Time

Depending on the length of text

## Outline

Understanding text coherence

## Focus

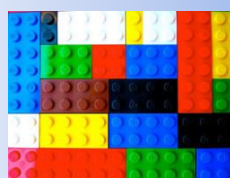

Reading

## Material

2 texts

## Thinking skills

HOTS

## Procedure

### Before class

1. Cut a text up into smaller parts or jumble the text parts in a word document. If possible, follow paragraph/sentence order, i.e. jumble the paragraphs/sentences of the text.

### In class

2. Hand out the text pieces or the jumbled text to each of your learners.
3. Tell your learners to read the text and arrange the pieces in the right order, or
4. to number the jumbled text in the right order.

## More Challenging ALTERNATIVE

Give your learners parts of **two** texts. Pair them off. Tell them to separate the parts of the two topics and to then order them.

Set a time limit.
